

AERIAL WORK PLATFORM

Discover® batteries provide exceptional performance while reducing the Total Cost of Ownership of your electric booms and scissor lift. With reliable power in both sealed and flooded technologies, you can be confident that our batteries will get the job done.

Traction

- Function in harsh operating conditions
- Maintenance-free

Advanced Energy Systems (AES)

- Increased life
- Maintenance-free

Tubular GC Flooded

- Cyclic stability, longer life and higher capacity over flat plate batteries

* Lower capacity models (A-B) available upon request.

- A** The number of amp hours (AH) a battery can deliver when discharged at a constant rate to 1.75vpc at 27°C. Capacities are based on peak performance.
- B** The nominal capacity in amperes (AH - Amp Hours) or discharge time in minutes provided when discharged at a constant rate. Ratings are tested to and based on industry prescribed guidelines.
- C** Mechanical characteristics may vary depending upon terminal types and handles used, and are subject to change without notice. Please verify.
- D** Height from the bottom of the battery to the highest point with standard terminal option. May vary depending on actual terminal type.
- E** Weights are approx.
