

LITHIUM PROFESSIONAL WARRANTY POLICY

NON-TRANSFERABLE LIMITED PERFORMANCE WARRANTY

Discover Battery Corp. (Discover), together with its agents, dealers, and distributors, warrants to the original product purchaser (User) that your Discover Lithium PROFESSIONAL battery is free from manufacturing defects that would prevent the battery from delivering unlimited cycles while maintaining at least 60% of the original 'Rated Wh' for the listed 'Workman-ship Warranty Period' or 'Total Energy Throughput Limit'.

Battery Model	Volts	Workmanship Warranty Period	Annual Energy Throughput Limit	Total Energy Throughput Limit
LITHIUM PROFESSIONAL GC2	12V / 24V / 36V / 48V	5 Years	875 kWh	3.5 MWh

Definitions

"Annual Energy Throughput" means the aggregate energy charged and discharged through the battery as logged by the on-board data logger over one year.

"Workmanship Warranty Period" means the total period in years from the initial installation date that the battery is covered by this warranty.

"Rated Wh" means the battery's nominal rated Watt-hour (Wh) energy at the time of manufacture and published in Discover's technical documentation.

"Total Energy Throughput" means the total energy charged and discharged through the battery as logged by the on-board data logger.

LIMITATION ON APPLICATIONS

Without the involvement of Discover in system design and Discover's express written authorization, the Battery is not intended for installation in series, use in a closed-loop application greater than 20 Batteries, a primary or backup power source for life support systems or other medical equipment, or any application where product failure could lead to injury to persons, loss of life or catastrophic property damage. To the extent permitted by law, Discover disclaims any and all liability arising out of any such use. Further, Discover reserves the right to refuse to service any Battery used for these purposes and disclaims any and all liability arising out of Discover's refusal to service.
